JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Privies and Cesspools—Construction—Care and Disposal of Contents—Connections with Sewer. (Ord. 311, Nov. 18, 1914.)

RULE 14. All privy vaults and cesspools shall be cleaned once a year, between the 1st day of April and the 1st day of December of each year, and the contents shall be collected and removed by a licensed scavenger in tightly covered tank wagons or in barrels approved by the board of health, and conveyed to a place at least one-fourth of 1 mile outside of the city limits, there to be disposed of by the trenching method. The scavenger shall deodorize the contents of the cesspool or vault before removing the same by mixing with solution of copperas or other approved efficient deodorant. The expense of cleaning out such vault and cesspool shall be paid by the owner, agent, occupant, or tenant of the premises on which the same are located, but in no instance shall the fee be larger than such as fixed by the board of health under agreement with the licensed scavenger as provided for by the ordinances of the city of Holland.

No coarse rubbish, tin cans, metal, glassware, wire, or wood shall be deposited in vaults or cesspools.

RULE 15. All new privies and closets shall be constructed with a drawer so arranged that it can be readily removed and emptied of its contents. When used sufficient dry earth, ashes, or slaked lime must be used daily to absorb all the fluid parts of the deposit. The maximum fee for cleaning any such drawer shall be fixed by the board of health under the provisions of the ordinances of the city of Holland: *Provided, however,* That no new privies shall be permitted to be built or constructed where in the opinion of the board of health sewer connection can reasonably be had.

Communicable Diseases—Notification of Cases—Quarantine—Placarding—School Attendance—Burial—Disinfection. (Ord. 311, Nov. 18, 1914.)

RULE 16. It shall be the duty of every owner, agent, or occupant of any dwelling house or other building in which there shall occur a case of any communicable disease dangerous to the public health, to immediately give notice thereof to the health officer of the city of Holland.

RULE 17. Any physician who may be called to attend any case of communicable disease dangerous to the public health shall at once report such case to the health officer.

RULE 18. No person sick with any communicable disease dangerous to the public health, nor any clothing or other property that may have been exposed to infection, shall be removed, nor shall any occupant take up residence elsewhere, without the consent and under the direction of the health officer.

RULE 19. No teacher, principal, professor, or superintendent, of any day school, college, or Sunday school, shall knowingly permit any child, pupil, or student, with any communicable disease, or any child, or person residing in a house where there is a case of scarlet fever, diphtheria, smallpox, measles, epidemic cerebrospinal meningitis, infantile paralysis, or tuberculosis, to attend school, class, or service, under his or her charge, until such time as the health officer certifies to such teacher, principal, professor, or superintendent, that the said child or person may attend without danger of communicating the disease to others.

RULE 20. Upon receipt of the notice provided for in rules 16 and 17, the board of health, or its officers, whenever in their opinion a disease dangerous to public health exists, shall take the necessary measure by placard, quarantine, and otherwise, to prevent the spread of such disease.
